

PAINT SOLUTION

You deserve the Six Star treatment

"The day you picked up your new car, the paint finish looked perfect. Australia's harsh environmental conditions will over time diminish that beautiful new car finish if left untreated. Today, with water restrictions, changes in climate and temperature, protection for your car has never been so essential"

Six Star Paint Sealant

Unlike ordinary car waxes, polishes or paint protective coatings, Six Star's technologically advanced, superior sealant is specifically designed for the Motor Industry.

This revolutionary advanced PTFE (polytetrafluoroethylene) formula, not only penetrates and seals cars paint surfaces but enhances its brilliant colour, lustre and shine. Let's face it, first impressions count. Having Six Stars highly developed Paint Sealant applied to your vehicle will guarantee to lock in that original paint code colour thereby eliminating any chance of fading and discolouration.

Benefits:

- NEVER need to wax or polish
- Easy maintenance
- Ensures easier colour matching for touch ups
- Environmentally kind
- UV Protected
- **LIFETIME WARRANTY ***

Six Star Platinum Paint Sealant

As the name suggests, Six Star's Platinum Paint Sealant is Australia's ultimate in car care technology.

This innovative, sophisticated treatment contains all the quality ingredients of the standard Paint Sealant, then goes that extra mile by providing an even greater protection against environmental factors which can cause irreversible damage.

Factors such as:

Etching: Tree sap, bird / bat droppings, salt water, insect engraving and other natural deposits that leave scarring and permanent damage.

Road Pollution: Dirt, oil, exhaust fumes and air born contaminants combined with normal weather conditions that build up on the surface to become dull and rough.

Pitting: Tar spots and industrial fallout can react chemically to cause indentations in the paint work.

*Lifetime Warranty subject to age of vehicle

All Six Star Solution products are applied/installed by fully accredited technicians
