

NEW PRODUCT

nüvi 260

The new nüvi 260 is the newest model in the popular nüvi family featuring a sleek new ultra-slim design while retaining the well known easy two button 'Garmin' interface and menu structure that sets Garmin apart from other GPS navigators.

The nüvi 260 comes with City Navigator® Australia preloaded on internal memory freeing the open SD card slot for additional maps and images. Additional features and enhancements include *Text to Speech* voice guidance, a Picture Viewer, Calculator, Currency Converter, Unit Converter and World Clock. Also included are configurable vehicle icons and Garmin Lock™ which disables the unit from performing any functions until the user types in a specific 4-digit PIN or takes the unit to a predetermined secure location.

The POI proximity alert feature is standard and this enables Speed camera, School zone, Red light camera and other Black spot data to be downloaded for advanced audible and visual warnings.

Navigate with Ease

The nüvi 260 comes ready to go with preloaded maps and includes automatic routing, 3D or 2D map perspective, turn-by-turn voice directions and a fingertip touch screen interface, making navigation easy. It also supports configurable vehicle icons — fun, customized car-shaped icons in a variety of colours that show your position on the map.

Features of the nüvi 260 are:

- Bright, 320x240 Hi Resolution touch screen.
- New high-sensitivity GPS receiver.
- SD Card Memory expansion slot.
- MP3 player.
- Audio book player.
- World time clock.
- Currency/measurement converters.
- Photo viewer.
- 3D Mapping with Customised vehicle icons for moving map.
- Red-light , Speed Camera and School Zone support– (Available as free download)
- Text-to-speech – With Australian Voices announces street names, POIs and addresses rather than simple “turn left, turn right”.
- Garmin Lock™ anti-theft feature– when enabled, users must input a PIN number to use the device.
